

# TRUE SCIENCE<sup>®</sup> ANTI-AGING CREAM

PRODUCT  
DETAILS

**Firm. Toned. Smooth. Blemish-free. Vibrant. Moisturized.**  
**TrueScience Anti-Aging Cream.**

Available exclusively from LifeVantage Corporation, an innovator in the anti-aging industry, TrueScience Anti-Aging Cream applies cutting-edge science to battle aging externally and contains the ingredients of Protandim, found to prevent cell damage internally. By targeting the source, TrueScience can dramatically reduce the appearance of aging.

When used daily, TrueScience Anti-Aging Cream gives your skin all it needs to age gracefully. It immediately diminishes the appearance of fine lines and wrinkles, helps skin appear youthful and smooth, and provides a vibrant appearance that glows. Skin appears re-invigorated, visibly smoother, firmer and more even-toned. And it's all inclusive, so you don't need additional eye cream.

Designed to meet the individual needs of your skin, rediscover your skin's youthful strength, firmness and resilience. TrueScience is formulated from only the best, most scientifically advanced ingredients and technologies to give you unsurpassed anti-aging benefits—results you can see and feel.

# WHAT TRUESCIENCE DOES FOR YOU

**Intense Hydration.** Utilizing a Lamellar Phase Emulsion system, TrueScience forms a superior moisturizing barrier without a thick, oily feel. The skin feels young again, infused with life.

**Moisturization.** TrueScience provides a high-end moisturizing effect without oily buildup. A proprietary blend of plant lipids regulates water levels and decreases water loss from the skin. You can see and feel results on the surface of your skin.

**Toning and Brightening.** TrueScience is specially modified to slow the spread of melanocytes, which contribute to uneven skin coloration. Skin looks years younger, as tones are evened and the texture is refined. In addition, a process of gentle skin lightening enhances skin's clarity and makes your skin radiant, vibrant and youthful.

**Fine Lines and Wrinkles.** The peptides in TrueScience promote collagen and elastin, improve tone and texture, thicken skin and renew the skin to reduce the appearance of fine lines and wrinkles.

**LifeVantage Corporation, an anti-aging leader, sets a new standard in skin care and is proud to offer the complete approach to anti-aging, inside and out. Reverse the appearance of aging with TrueScience. Take an active approach in the battle to retain a youthful appearance.**

**A daily moisturizer to visibly smooth and renew skin, restoring its youthful look and vitality. What are you waiting for? Look younger now with TrueScience Anti-Aging Cream.**
